left to right: Mayor William Reichelt, Al Cabot, Dori Hayes, Municipal Services Manager Terry Grady from Republic Services, Town Council President George Condon and DPW Director Robert Colson.

The Environmental Committee is grateful for the support of Republic Services. Their \$1,200 contribution assists the Committee with its expenses for West Springfield Earth Day and Clean-Up Day, as well as helping to fund the Committee's "Student Environmental Education Classroom" (SEEC), providing our 3rd, 4th and 5th graders in W Springfield with environmental education in the classroom and a subsequent field trip to Bear Hole, Mittineague Park or The Springfield Materials Recycling Facility (MRF) where they get to apply the practical applications of the curriculum to real life.
